PROFILE

Hi, I'm a web developer with over 6 years of experience creating a wide range of websites. I have worked on projects in many industries and with various technologies. For the past 5 years, I have exclusively worked with WordPress. I can easily convert any Figma design into a website. If you are a designer or an agency looking for a professional who can convert designs into websites that are perfectly responsive, visually appealing, and feature custom functions, don't hesitate to contact me. I spend my days and nights working with HTML, CSS, JavaScript, and PHP.

WORK EXPERIENCE

Summary

- Currently a freelance web developer responsible for marketing, selling services, managing all client relationships, controlling budgets, and designing/developing websites and web-based applications from small to large businesses.
- Developing a personal blogging website for an individual utilizing the WordPress platform.
- Developing an eCommerce website, membership website, and photography website using PHP, CSS, and MySQL on the WordPress platform.
- Cpanel provided through web hosting is utilized to manage server and websites.
- Collaborating with the sales, marketing, and support teams within numerous organizations to launch products on time and within budget.
- Diagnosing, troubleshooting and resolving the issues with website, server and/or third-party integrations.
